

I am a full-stack web developer with a strong design background as a design architect over 12 years. I have always practiced in an agile environment and believed in the importance of respecting others and proper communication among team members. I also have a coding channel on Youtube so visit my portfolio site to check out what and how I code.

LEE, OK-HYUN(O'LEE)
FULL STACK WEB DEVELOPER

EXPERIENCE

Mar 18- Sept 18 Web App Full-Stack Developer At BoardActive, Atlanta, GA

BoardActive is a startup that utilizes a location based AdDrop technology that delivers an advertisement to user's mobile devices present in a geo-fence. As a full stack dev, I maintained the web platform with React/Redux, Node(Sequelize), Postgresql, Heroku, AWS S3 bucket. Worked in a team of 8 people, Agile practice. BitBucket Pipeline to deploy.

Some of the features /API that I have worked with are below:

Analytics - maintaining Data Analytics with React Recharts with React, Node, SQL Stored Procedure

CSV Uploader - adding CSV capability for multiple uploader with React, Node

Delete Cascade - implemented delete cascade with soft-delete using Sequelize Hooks with Node

Google API - implementing Google Maps API for users to set Geofence with React

Image Uploader - implemented base64 image uploader using React, Node, AWS S3 bucket

Nov 17-Mar 18 Web Development Immersive At General Assembly, Atlanta, GA

O-Lingo | A Full-stack app with React on Rails which let users to translate languages.
