

OK-HYUN LEE(O'LEE) | WEB APPLICATION DEVELOPER

Atlanta, GA | 1-678-793-7542 | babylee2002@gmail.com | LinkedIn:<https://www.linkedin.com/in/ok-hyun-o-lee-l-8467877/>

I am a web developer with a strong design background as a design architect. I have practiced in agile teams and believed in the importance of respecting others and proper communication among team members to collaborate.

EXPERIENCE

Aug 19 - Present | Software Engineer (Atos-Syntel onsite at The Home Depot) | Atlanta, GA

Focusing on the frontend development for The Home Depot Warehouse app. One of the key members of splitting the monolithic app to micro-frontend apps. Currently working on the component library with Storybook.

React(Hooks|ContextAPI|Storybook|ContextAPI), SpringBoot, Google Cloud, K8s, Docker

Oct 18 - Jun 19 | Web|Mobile Developer (Helium Services LLC) | Atlanta, GA

Helium Services LLC is a software consulting firm that provides web and mobile solutions to the customers. Most of the projects are scheduled to be completed in a 12 week period. Technologies used are **React, React-Native, Redux, PHP/Laravel, Bitbucket, AWS EC2, S3, Netlify**. List of projects that I have worked with are below:

WASTEPOINT: A valet trash pick-up service web and mobile solutions for their admins, supervisors and porters.

Track porter locations with QR-Codes and their coordinates.

SYNDEO : A web platform that connects publishers to advertisers dedicated to the front-end portion of apps.

EMB3: A web software solution that is in development for the mental health counseling agencies to prepare for and ultimately pass audits performed by auditing agencies.

Mar 18 - Sept 18 | Web App Full-Stack Developer (BoardActive) | Atlanta, GA

BoardActive is a startup that utilizes a location based AdDrop technology that delivers an advertisement to user's mobile devices present in a geo-fence. Tools used **React/Redux, Node(Sequelize), Postgresql, Bitbucket,**

Heroku, AWS S3 bucket in a team of 8 people, agile practice. BitBucket Pipeline to deploy. Some of the features /API that I have worked with are below:

Analytics | CSV Uploader| Delete Cascade | GoogleAPI |Image Uploader

Nov 17 - Mar 18 | Web Development Immersive Fellow (General Assembly) | Atlanta, GA

12 weeks intensive web development program to get exposed to various different and latest web technologies. Built 5 web apps using Javascript | React, Postgresql, Ruby on Rails.

Jan 16 - Nov 17 | Business Owner At Olee's Kitchen, LLC

Built and designed the business website with HTML, CSS, JS.

Sept. 04 - Apr 15 | Design Architect, Atlanta, GA

As a licensed architect, I managed teams of engineers and architects to develop multifamily housing projects at GeheberLewis Associates and Coordinated teams of engineers and drove development for complex projects in 10+ major cities at John Portman and associates.
