

OK-HYUN LEE(O'LEE) | FULL STACK DEVELOPER

Atlanta, GA | 1-678-793-7542 | babylee2002@gmail.com | web portfolio site: <https://olee-portfolio.herokuapp.com>

I am a full-stack web developer with a strong design background as a design architect over 12 years. I have always practiced in an agile team environment and believed in the importance of respecting others and proper communication among team members to collaborate. Check out some of the recommendations on my Linked page: <https://www.linkedin.com/in/ok-hyun-o-lee-lee-8467877/>, I also have a coding channel on Youtube so visit my portfolio site to check out what and how I code. <https://www.youtube.com/channel/UC8E39wGNP0EV6W-bj7ILpDA>

EXPERIENCE

Oct 18- Present | Web|Mobile Developer At Helium Services LLC | Atlanta, GA

Helium Services LLC is a software consulting firm that provides web and mobile solutions to the customers. Most of the projects are scheduled to be completed in about 12 week period. Technologies used are **React, React-Native, Redux, PHP/Laravel, Bitbucket, AWS EC2, S3, Netlify**.

- **EMB3**: A web software solution that is in development for the mental health counseling agencies to prepare for and ultimately pass audits performed by auditing agencies. By creating a well organized system that empowers users to easily find necessary documentation. As a team of 3 developers, I am mostly dedicated to build the backend connecting to the database with PHP/Laravel.
- **WASTEPOINT**: A valet trash pick-up service web and mobile solutions for their admins, supervisors and porters. Track porter locations with QR-Code scans as well as with the location tracker. As a team of 3 developers, we were able to complete 2 mobile apps and 1 web app in 14 weeks. I was dedicated to the web and mobile frontend with React, React-Native.
- **SYNDEO** : A web platform that connects publishers to advertisers dedicated to the front-end portion of apps utilizing technologies that includes React/Redux, React-Native and recently Worked in a team of 3 people, Agile practice. BitBucket to deploy for 12 weeks. I was dedicated to the frontend using React, Redux.

Mar 18- Sept 18 | Web App Full-Stack Developer At BoardActive | Atlanta, GA

BoardActive is a startup that utilizes a location based AdDrop technology that delivers an advertisement to user's mobile devices present in a geo-fence. As a full stack developer, I maintained the web platform with **React/Redux, Node(Sequelize), Postgresql, Bitbucket, Heroku, AWS S3 bucket**. Worked in a team of 8 people, Agile practice. BitBucket Pipeline to deploy.

Some of the features /API that I have worked with are below:

- **Analytics** - maintaining Data Analytics with Recharts with React, Node, SQL Stored Procedure.
- **CSV Uploader** - adding CSV capability for multiple uploader with React, Node.
- **Delete Cascade** - implemented delete cascade with soft-delete using Hooks with Node.
- **GoogleAPI** - implementing Google Maps API for users to set Geofence with React
- **Image Uploader** - implemented base64 image uploader using React, Node, AWS S3 bucket

OK-HYUN LEE(O'LEE) | FULL STACK DEVELOPER
