

I am a full-stack software developer with a strong design background. In my previous career as an architect, the process of designing skyscrapers trained me to break down complex problems into their constituent parts. No one could build the projects alone, it was always the result of collaborative effort. Due to that, I grew to be an excellent team player.

LEE, OK-HYUN(O'LEE)  
FULL STACK WEB DEVELOPER

## EXPERIENCE

### Mar 18-Present Web App Full-Stack Developer At BoardActive, Atlanta, GA

BoardActive is a startup that utilizes a location based AdDrop technology that delivers an advertisement to user's mobile devices present in a geo-fence. As a full stack dev, I maintained the web platform with React/Redux, Node(Sequelize), PostgreSQL, Heroku, AWS S3 bucket.

Some of the features /API that I have worked with are below:

*Analytics* - maintaining Data Analytics with React Recharts with React, Node, SQL Stored Procedure

*CSV Uploader* - adding CSV capability for multiple uploader with React, Node

*Delete Cascade* - implemented delete cascade with soft-delete using Sequelize Hooks with Node

*Google API* - implementing Google Maps API for users to set Geofence with React

*Image Uploader* - implemented base64 image uploader using React, Node, AWS S3 bucket

### Nov 17-Mar 18 Web Development Immersive At General Assembly, Atlanta, GA

*O-Lingo* | A Full-stack app with React on Rails which let users to translate languages.

Technologies: PostgreSQL, Ruby on Rails, React, Styled-Components, Microsoft Azure API, Google Map API

*CityPoint* | A Full-stack app with React on Rails which allows user to write reviews for the cities they visited.

Technologies: PostgreSQL, Ruby on Rails, React, Styled-Components

*MyArchitect* | A Full MERN stack application. This app allows users to log in their favorite buildings in the cities they visit.

Technologies: MongoDB, Express, Node.js, and React Styled-Components

*UpNext App* | A Full-stack with a built in timer for the each order helps you monitor your food prep time.

Technologies: MongoDB, Express, Node.js, and Handle-bar/CSS

*Hangman* | A simple word guessing game the basic idea of which is from the hangman game.

Technologies: JavaScript, DOM, jQuery, and HTML/CSS

### Jan 16-Nov 17 Business Owner At Olee's Kitchen, LLC

-Managed a business to coordinate among customers, employees and vendors.

-Built and designed the business website with HTML, CSS, JS.

### Apr 13-Apr 15 Project Manager At Geheber Lewis Associates, Atlanta, GA

- Lead teams of engineers and architects to develop multifamily housing projects.

### May 07-Jan 13 Architect At John Portman and Associates, Atlanta, GA

-Utilized scripting for the parametric software technology that is based on C++ & visual studio to integrate into the company workflow of 50+ employees.

-Coordinated teams of engineers and drove development for complex architectural projects in 10+ major domestic & overseas cities.

### Sept 04-May 07 Junior Project Manager At Nelson, Atlanta, GA

- Managed and coordinated multifamily housing projects w/clients and consultants.

- Introduced 3D rendering capability to the firm and trained co-workers.

## EDUCATION/ AWARDS & CERTIFICATION
