OK-HYUN LEE(O'LEE) | WEB APPLICATION DEVELOPER

Atlanta, GA | 1-678-793-7542 | babylee2002@gmail.com | web portfolio site: https://olees-portfolio.netlify.com/

I am a web developer with a strong design background as a design architect. I have practiced in agile teams and believed in the importance of respecting others and proper communication among team members to collaborate.

EXPERIENCE

Oct 18- Jun 19 | Web|Mobile Developer At Helium Services LLC | Atlanta, GA
Helium Services LLC is a software consulting firm that provides web and mobile solutions to the customers. Most of the projects are scheduled to be completed in about 12 week period. Technologies used are **React, React-Native, Redux, PHP/Laravel, Bitbucket, AWS EC2, S3, Netlify**. List of projects that I have worked with are below:
WASTEPOINT: A valet trash pick-up service web and mobile solutions for their admins, supervisors and porters. Track porter locations with QR-Codes and their coordinates.
SYNDEO : A web platform that connects publishers to advertisers dedicated to the front-end portion of apps.
EMB3: A web software solution that is in development for the mental health counseling agencies to prepare for and ultimately pass audits performed by auditing agencies.

Mar 18- Sept 18 | Web App Full-Stack Developer At BoardActive | Atlanta, GA
BoardActive is a startup that utilizes a location based AdDrop technology that delivers an advertisement to user's mobile devices present in a geo-fence. As a full stack developer, I maintained the web platform with **React/Redux, Node(Sequelize), Postgresql, Bitbucket, Heroku, AWS S3 bucket**. Worked in a team of 8 people, agile practice. BitBucket Pipeline to deploy. Some of the features /API that I have worked with are below:
Analytics | **CSV Uploader**| **Delete Cascade** | **GoogleAPI** |**Image Uploader**
